

case study

C. Butt Ltd

C. BUTT LTD

working in
partnership with

acs

office solutions.com

“The comments from visitors have been extremely flattering, and our employees are enjoying an environment designed for comfort and efficiency. Jon Bautista – our acs Account Manager – was tireless in interpreting my vision and helping me to realise it. The whole acs operation worked as a team to ensure that the project went smoothly from concept to completion.”

Clive Hodgkinson, Managing Director

The Requirement

Established in 1926 and currently with over 500 employees, C. Butt Ltd is a well established distribution and logistics company, with an extensive fleet of vehicles operating both nationally and internationally. As a result of continued growth, the head office building was no longer adequate in size, facilities, layout and – also important – image. They decided to move to a new building, designed to match their specific needs. Emphasis was to be on technology – a vital ingredient for any company in their business. **acs office solutions** was one of a number of suppliers invited to bid for the supply of the new furniture requirements.

The Solution

Clive Hodgkinson – Managing Director at C. Butt Ltd – had very clear ideas about the image that he wanted to achieve. Clients and prospects were to be impressed with the technology and innovative style. After many discussions and various visits to **acs**'s showrooms and offices, **acs** was finally selected to supply and install the furniture. On completion, C. Butt held two open days to launch their new flagship to suppliers and to clients, prior to moving all the staff in.
